Experience

Litigation Graphic Designer | Nicora Law Office, LLP | Carmel, California June 2024 – Present

- Determining the placement and appearance of visual materials that most effectively conveyed the information to the court, jury, and or witnesses.
- Establishing and maintaining the core design system including fonts, colors, logos, etc.
- Proficiency with Adobe Illustrator, Adobe Premiere Pro, and Microsoft PowerPoint.

Customer Support Representative | Flume Water | San Luis Obispo, California July 2024 – Present

- Addressing customer issues and resolving them promptly.
- Providing technical assistance for incoming queries and issues related to app and hardware installation, setup, and connection.
- Utilizing cross-platform communication via email and phone with colleagues and users.

University Graphic Systems (UGS) Intern | Cal Poly March 2025 – June 2025

- Gained practical experience through UGS in the production of commercial, publication, and specialty print products, as well as digital media.
- Supported projects involving marketing, sales, project management, and business operations within the graphic communication industry

PR Graphics Coordinator | Kappa Kappa Gamma | Cal Poly March 2026 – Present

- Supporting chapter branding with a team by creating social media graphics and promotional materials

Creative Team Member | Advertising Club | Cal Poly Winter 2026 – Present

- Collaborating with a team of student designers and marketers to develop creative concepts and visual materials for specific clients.

Projects

“Fureverly” Pet Adoption Kit | Cal Poly March 2025 – June 2025

- Designed a branded care package box and printed materials for pet adoption centers using Esko Studio Designer and Adobe Illustrator.
- Used a user-centered design approach by creating prototypes and gathering feedback through surveys on layout, color, and usability, then refining the design to improve clarity and overall visual cohesion.

Custom Card Deck Design and Production | Cal Poly April 2024 – June 2024

- Created intricate, high-quality card designs using Illustrator and InDesign.
- Ensured both visual appeal and print readiness for pre-press operations.
